Pittsburg State University, KS, USA

WORK EXPERIENCE

Automation & Systems Consultant (Contractor)

All Max Nutrition – Toronto, Canada | Jan 2026- Current

Projects:
- Automated Reports - Forecasting, Low Stock
- Building ERP layer connecting - Inventory, Logistics and Label Departments

Highlights:
- Turned 3 day manual process into a 1-click (3min run) → automated data integration across Sage SQL servers, and Excel
- Enabled clear tracking of orders across every stage, providing leadership with real-time progress visibility and cross-departmental accountability

Automation & Systems Consultant (Contractor)

Chocosol Traders – Toronto, Canada | Apr 2025- Current

Projects:
- Modernizing systems and workflows to scale to 10x current production
- Automated inventory transfer workflows integrating Katana & Shopify - across retail, wholesale, and events

Highlights:
- 80% of inventory workflows, significantly reducing manual errors and giving easy visibility into demand and stock levels
- Built real-time dashboards to track COGS, inventory performance, and financial metrics to evaluate ROI and guide operational decisions

Operations Lead (Full-time)

Suppli – Toronto, Canada | Oct 2021- Apr 2025

Projects:
- Built custom Inventory Management Tool → 45% less stockouts
- Automated workflows (API integration) → cut ops hours by 55%
- Designed prediction model for catering orders → 95% demand accuracy

Highlights:
- Scaled a circular reuse framework for 100+ restaurants, 20+ corporate clients, and 70+ return locations by managing end-to-end logistics across multiple 3PL and warehouse partners
- Gained hands-on exposure to major industry POS systems user interfaces.
- Led analytics & KPI dashboards → 25% client growth

Process Engineer / Interim Transportation Manager (Full-time)

Future Foam Inc. – Dallas, USA | Jul 2018 – Mar 2021

Projects:
- Transportation optimization model → $120K annual savings
- ERP implementation + training → improved adoption & data accuracy

Highlights:
- Reduced material costs by 20% via supplier negotiations
- Managed 20+ production staff, optimized schedules to maximize workforce efficiency and reduce excess labor costs
- Oversaw daily production schedules and procurement to meet a 3-month demand forecast

Quality Control & Lean Six Sigma Specialist (Full-time)

Digital Room Inc – Dallas, USA | Sep 2016 – May 2018

Projects:
- Integrated tolerance margins - 30% less reprints due to cutting errors
